E. C. Clifford asked that his liquor license be transferred to Herman Hill. Granted.

Jesse W. Elliott and Tomney & Hill, steam were granted licenses as retail liquor dealers.

REPORTS.

JOE E. Taylor, City Sexton, presented his report of deaths during the year 1885, as follows: Males 236, females 190, total 426. A decrease of thirty-two under 1884, and a decrease of 141 under 1883.

The above total, 426, does not include twenty-five still births, and eighty-one decedents brought from other places, making a grand total of 531.

The disease to which the greater number succumbed was diphtheria, 61. Next came diphtheria with 61 victims. Mr. Taylor's report closed with a strong appeal to the Council to take means for securing a supply of water for the city cemetery, and contrasting that burial ground with Mount Olivet. Referred to the committee on cemetery.

The City Attorney and the Marshal presented a report stating that they had investigated the methods of doing business practiced by the Chicago Tea Merchants Co., charges concerning which had been preferred at the last session. They found that the tea and

the had been purchased of reputable wholesale houses and was of good quality, the system of "presenting" souveniers, however, as the company termed it, though not strictly a lottery, was so closely allied to it, that it should be suppressed. The company had been advised what the report of the Council would be, and had promised to discontinue the obnoxious feature of their business at once. Accepted.

The committee on irrigation stated that the trouble between Frank Armstrong and certain citizens, who took water from the stream on which he depended for water supply, had been amicably adjusted.

The committee on police reported that they had examined the report of the Police Justice for the month of November, and found it to be correct; the same committee reported similarly on the Marshal's accounts for the same month.

The committee on license reported favorably on the petition of Oliver Pearson, asking for a free license to peddle hosiery for a period of three months. The same committee, to whom had been referred the petition of Frank Foote and J. C. Conklin & Co. asking for a reduction in license of sampling mills, stated that the ordinance licensing sampling mills was the same as that licensing smelters—\$100 per annum. They thought a fresh provision should be made, lowering the amount on sampling mills, and recommended that the matter be referred to the committee on revision. In the meantime, however, they recommended that the petition be not granted. Adopted.

The same committee reported unfavorably on the petition of Eber Case, asking for a rebate of his liquor license.

MISCELLANEOUS.

The following appropriations were made: To Mrs. M. A. Burt, feeding city prisoners, 1,453 meals, at 15 cents, \$218.70; to J. S. Jensen, attending city clocks, \$25. Adjourned.

PROVO POINTS.

IF those people who imagine that we have had hard times during the past year, would take a drive about town, they would see nearly every block in improvement, or on nearly every block in the city. The Lumber and Building Company has done its full share towards these improvements, as the work done on the new Stake Tabernacle, the new district school house, a neat little residence on President Cliff's property in the Fourth Ward, and many other improvements, though the company will bear evidence, though the company has not employed so many workmen as sometimes heretofore. These workmen, having been thrown on their own resources, as it were, have formed several little building companies, and have become contractors to compete with each other.

O. H. Berg & Company have had a fair share of the work, and some of the buildings erected by these gentlemen during the past year, will remain and be permanent landmarks to ornament our city for many years to come.

Among those which bear the impress of the master workman's hand, we might mention the new building owned by H. E. Lawing on Centre Street, a fine residence in the Fourth Ward, for Mr. George Shumway. Mr. Berg and his men are at present finishing off a very neat residence for the young and popular attorney, A. G. Sutherland, Jr., in the First Ward. There are several other of these little enterprising building companies, and as they are all readers of THE HERALD, we propose to give them each a notice in turn.

OUR NEW POSTMASTER.

W. C. Browne the First bona fide Resident of Utah who Secures an Office from Cleveland.

WASHINGTON, January 5.—The President nominated the following postmasters: William C. Browne, at Salt Lake City; Susan Mitchell at Visalia, California.

Before this dispatch came to the newspapers and was bulletined in front of their offices, Mr. Browne himself had received a line from the operator at Ogden giving him the first intimation of his appointment. Not many minutes after, the D. & R. G. office was thronged with visitors who came to offer congratulations, and up to the time of retiring last night, the new postmaster was the recipient of messages and handshakes thick and fast. Among those who sent felicitations were Governor Murray, and Postmaster Lynch, the latter observing, with a cheerful countenance, that he congratulated himself as much as he congratulated Mr. Browne.

To a reporter of THE HERALD Mr. Browne said it was of course too soon to say what changes he should make, as he was ignorant at present of how the business at the postoffice was carried on; after his confirmation by the Senate, assuming that to be an established fact, might be a fortnight or such a matter before his credentials arrived, and he did not expect to be in possession of the office for probably a month to come. The bonds of the office are \$30,000, which must of course be filed before the new official takes his place.

Mr. Browne is the ticket agent of the D. & R. G. Western, a position which he has filled for the past several years; he came to Utah three years ago, and previous to that had been in Colorado four years. He was born in New Jersey, but most of his life has been passed west of that State, and during the war he fought on the Northern side as captain of an Indiana Cavalry Company. He is 46 years of age, married, but without children. During the time he has been here, he has made himself known as a hard worker in the interests of the narrow gauge, and, as a consequence, has been considerable of a thorn in the side of the company across the way. He has made a good many friends from his jovial and companionable manners, and is one of that sort of men whom the newspaper reporters are universally regarded as a friend without imparting is never without a word of intelligence. His backing for the position he has secured was so strong as to cause him to be rather confident from the outset, among his endorsers being the late Vice-President Hendricks, Senators Voorhees, Gray, McPherson, John A. Kenna, Commissioner Carlton, General Demmitt, Hon. William Springer, Dick Thompson, Nick Muller, Minister Denby and several others.

The most formidable opponents to Mr. Browne were C. R. Barratt, H. Ramberger and W. B. Sowles. Mr. Barratt had the heaviest local backing, which does not seem to have gone among his friends several who were thought to be strong "at court." Whatever chances Mr. Sowles may have had were knocked away by the Democratic wing of the Republican Salt Lake Tribune's taking up and espousing his cause.

POSSIBLY FATAL INJURIES.

Samuel George Read Falls Down an Acreway.

At about 7 o'clock on Monday evening, Samuel George Read, the well known news-dealer, fell down the acreway on the south side of the Palace Hotel. It seems that the gentleman was awaiting the arrival of a street car, and leaned up against the railing of the acreway, when, through some cause or other, he lost his balance and fell head foremost, striking with terrific force, the pavement below. The fall rendered him unconscious. The accident attracted the attention of some boys who happened to be in the neighborhood, and Mr. Read was soon afterwards removed to his home near the D. & R. G. depot. An examination, a short time later, by Dr. Benedict, revealed the fact that the unfortunate gentleman had received two bad bruises on his head, from which his left thigh was bowed, and also that his left thigh was broken.

Dr. Benedict performed the necessary services, and yesterday the patient was resting as easily as could be expected. He is 78 years of age, however, and the injuries may result more seriously than at present expected.

Since the accident occurred, we have received several complaints in reference to the insecure and unsafe railing that encloses the acreway mentioned. One claims that the railing is so low as to make it positively dangerous to all pedestrians who may have occasion to pass that way, especially after dark; another tells us of several narrow escapes of children who have been playing in that vicinity. The matter should be looked into immediately by those most interested.

Alturas County, Idaho, is named as the locality of the property, but the corporation may establish works in any part of said Territory it may see fit.

The name of the corporation is the Haley Hill Mining Company, and it will continue in existence for thirty years, unless sooner dissolved according to law. Salt Lake City is named as the principal place of business.

The amount of the capital stock of the corporation is placed at \$1,500,000, which is divided into 150,000 shares of the value of \$10 each, and the amount subscribed and held by the incorporators is as follows:

Names.	Shares.
Harvey Hardy	50,000
Boyd Park	2,500
J. G. Sutherland	500
J. R. McBride	49,500
Theodore W. Whitely	47,500

Until the first annual meeting of the stockholders and the election and qualification of the officers to be then chosen, Boyd Park will act as President; Harvey Hardy, vice-president, and John R. McBride, secretary and treasurer. The private property of the stockholders shall not be liable for any of the debts or liabilities of the company.

The incorporators propose to hold and operate certain mining claims in Mineral Hill Mining District, Alturas County, Idaho, known and recorded as the Haley Hill claim, the Way lig mining claim and the Scott-Crismon mining claim and location. The conveyance of these several claims to the corporation hereby created shall be in full payment for the capital stock herein subscribed. It is also provided that the corporation may levy assessments on the full paid capital stock, not to exceed 10 cents per share at any one time, and collect the same provided by law.

BURNED TO DEATH.

The Dreadful Act of an Insane Woman.

The burning of a child mentioned in our issue of last evening, occurred at the south end of Hooper. Dr. Allen was called to attend to the child's injuries, but his services were not needed, as the little sufferer expired about half an hour after the doctor arrived at the bedside of the unfortunate.

The mother of the child, Mrs. George Gifford, has for a long time been suffering from periodical attacks of acute mania, and has been almost constantly attended by some other member of the family. Yesterday, however, the woman's husband left her for a few moments, and the child, a little girl of about 6 years, had her clothing set on fire, and her body was burned black. Wherever her clothing came in contact with the child's body, the skin and flesh were frightfully burned, but her face and hands escaped serious injury. The brother of the maniac snatched a suckle bottle from the woman's breast, or she would have fallen a victim to her insane rage, as she declared it was her intention to kill it.

The father of the child was wild with grief and the woman was raving mad, and preaching to the assembled crowd. The spectacle was pitiable indeed.

The cause of the woman's derangement seems to have been the burying of her brothers in a snow slide several years ago.

Mr. Gifford is a poor man and is unable to pay the expenses of sending the woman to the insane asylum. The County authorities should certainly see to it that she is properly cared for. The family live in Davis County.—Ogden Herald, 5th.

ON INDICTMENT NO. TWO.

Apostle Snow Again Found Guilty of Unlawful Cohabitation.

Apostle Lorenzo Snow, who has been under trial at Ogden, for unlawful cohabitation, was again found guilty yesterday afternoon. A number of witnesses were introduced on both sides, and Mr. Snow was represented in a very able manner by Judge Kirkpatrick and Mr. F. S. Richards, of this city. The address to the jury of the former was listened to with rapt attention, and Mr. Richards' argument was equally as impressive.

Judge Powers' charge to the jury was in the usual strain, and was in effect, that if the jury found, beyond a reasonable doubt, that the defendant had during the year 1884 a legal wife living at Brigham City, Box Elder County, Utah Territory, from whom he was not divorced; that he recognized her as his wife, held her out as such, contributed towards her support, and that during the year he lived in the same house with the woman Minnie and recognized her as his wife, associated with her as such, holding her out as his wife, then the finding of unlawful cohabitation was complete, and they should find the defendant guilty as charged in the indictment.

The jury retired, and were out but a little over two minutes, when they returned and in answer to the queries of the clerk, announced that they had agreed upon a verdict. It was "guilty."

IN TROUBLE ONCE MORE.

John Aird Charged With Burglaries Intent

John Aird was arrested yesterday morning by Deputy Marshal Sprague, on the charge of entering, with burglarious intent, rooms occupied by Mrs. Thomas, who resides in Kimball Block. The complaint charged that he took therefrom a table-cover, a picture, and some other articles. He was taken before Commissioner McKay. The prosecution introduced as witnesses Mrs. Thomas and Mrs. Clinton, both of whom testified that Aird had entered the rooms and taken the articles alleged. Aird testified in his own behalf to the following effect: I went to see Mrs. Thomas on her invitation; was under the influence of liquor, and when I knocked there was no answer; I knocked again, louder than before, but could get no answer; I then pushed against the door, and it gave way; I then forced open the room of another door, and took the articles mentioned, which are my own property. Commissioner McKay then summed up the case, and severely reprimanded Aird for his conduct in the matter, and continued the case until Tuesday next at 10 a.m., releasing the prisoner on his own recognizance, and intimating that the sentence inflicted at that time would depend entirely upon his future actions. Mrs. Thomas was at one time a wife of Aird's, but was divorced from him a few weeks ago.

PEOPLE WHO TRAVEL.

A Mail From a Man Who has Been There.

Traveling on the rail seems to be a great excitement to most people, and some in particular. A man fools around Main Street until it is time he was safely ensconced in the smoker; he hauls a car half a block away—misses it, and then sits his luggage at the expense of the driver of an express wagon; mounts the seat, and grows all the way to the depot—afraid he will miss the train. When he reaches the station, he wastes time disputing about the fare charged; driver calls an officer; fare is paid under protest, and the "traveler" skips to the ticket window, through everybody's aside, and wildly yells for his passport. When it is handed out by the tattered ticket agent, he fumbles in his clothes for the money to pay for it, and then suddenly remembers that his wealth is tightly strapped in his valise. Another manages to get to the window just as the train is in motion, and the entire depot force is formed in skirmish line to halt and stop the train; then he suddenly discovers that he intends to go to Ogden instead of Woods' Cross.

Others are blessed with forgetfulness to the extent that when their tickets are once purchased, they are petrified to further care regarding it, but when the man nearer than the tax collector comes along, the farce begins. The head is a daisy. He will sit on one seat, put his foot on another, his hat on a third, his overcoat on a fourth, and if the baggage hold out, would have possession of one-half of the car in no time.

Considerable trouble is experienced with a class nature was stupid enough to endeavor with intellect on the football principle—to be shored and kicked through the world, but they are fortunate enough to run against people endowed with nule instinct enough to give them a send, and they go.

The baggage cranks—train terrorists or this train, their baggage may remain in the seats, regardless of how many ladies are standing—if eyes are fixed to the seat, they have soured. Children pepper snout, expat. Many times they drop words hot enough to scorch the cushion.
